Classical carving doors for main entrance & drawings rooms. Carving wood with high level of symmetry has never been an easy task, thus to deliver quality at par with royal standards and within minimal possible time, we use a combination of machines and computers, to provide higher flexibility in terms of design, workmanship, materials and time.

### Wood Carving

We believe that every organisation is dynamic, involved in a process of continual change. This affects the way people work and manage their lives. As a result we set ourselves a straight forward challenge: not just to create and supply the best office furniture, but to deliver real solutions, to encourage new ways of working and to support your organisation - in every sense - towards a better workspace.

### Wall Papers

Wallpaper is enjoying a renaissance as a result of new designs, technology and modes of application- yes there is such a thing as peel and stick wallpaper, also known as pre-pasted. While many people assume that wallpaper belongs in a Victorian or other historic home, these days with new modernist and contemporary patterns, designers, homeowners and architects are using wallpaper in a wide diversity of applications. In addition to aesthetics and durability, wallpaper is particularly suited for kitchens and bathrooms where water resistance and easy cleanup are important.
